

Tasks - C. My favorite season

All of the seasons are pretty cool, but my favorite is winter. Because in winter have a such a nice holidays like Christmas, New year, and the National Kazakhstan days it's in 16 december. So on winter you can do a lot of activities like do the snowman and playing with snow balls. But ~~the~~ the one I like is doing the snowman with my friends or family. My sister likes to do snowangel. Also I like tangerine when you it tangerine in winter you feel a little atmosphere. So I like winter very much with all the activities and things durings winter. I love the cold weather and the sun that can came every time. Because in the summer sun is every and it's too hot for me, I have the freckles so you know when mom says you've been kissed by sun or sun loves you it feels weird. So in the winter I can be myself (without) sometimes without sun. Winter is likely season for families, because you can just be together with your family spending time like you want. I think winter it's not best but not bad. When it's summer we miss winter and when it's winter we miss summer. Everyone have loved season and mine it's winter.
